

# Whatever floats your boat...

## Question:

Can you float a plastic bag full of rice?

## Hypothesis:

- I think the plastic bag will float.
- I think the plastic bag will sink.

## Method:

1. Place about a cup of rice in the plastic bag.
2. Try to float the plastic bag.
3. Change the shape of the bag by putting a plastic lid into the bag.
4. Try to float the bag.

## Results & Conclusion:
